

**SUMMARY OF MAJOR CHANGES TO  
DOD 7000.14-R, VOLUME 6B, APPENDIX C  
“GENERAL LEDGER CROSSWALK FOR THE BALANCE SHEET STATEMENT”**

Substantive revisions are denoted by a ★ preceding the section, paragraph, table, or figure that includes the revision

PARA	EXPLANATION OF CHANGE/REVISION	PURPOSE
Appendix C	Revises the crosswalk to the balance sheet to reflect changes by Treasury Financial Management Service. These include new accounts, titles, and attributes.	Update

**TABLE OF CONTENTS**

**GENERAL LEDGER CROSSWALK FOR THE BALANCE SHEET STATEMENT**

Table C-1      General Ledger Crosswalk for the Balance Sheet Statement

**APPENDIX C****GENERAL LEDGER CROSSWALK FOR THE BALANCE SHEET STATEMENT**

This appendix identifies the United States Government Standard General Ledger (USSGL) crosswalk for each balance sheet report line. The following explains the information included in the columns of the crosswalk (all ending balances are postclosing balances on the balance sheet statement):

- A. Column (1) represents the line number on the statement.
- B. Column (2) identifies the title of the line number on the statement.
- C. Column (3) identifies whether the preclosing (Pre) or postclosing (Post) USSGL account balance is to be used.
- D. Column (4) identifies whether the beginning balance (B), ending balance (E), or ending minus beginning (E-B) USSGL account balance is to be used.
- E. Column (5) reflects the USSGL account numbers included on each line of the statement.
- F. Column (6) identifies the title of the USSGL account.
- G. Column (7) uses the Department of the Treasury, Financial Management Service (FMS) coding to identify the USSGL amounts as entity (E) or nonentity (O).
- H. Column (8) uses the Treasury Financial Manual (TFM) coding to identify the breakout of assets and liabilities depending upon whether or not they relate to other federal entities. Federal (Fed) identifies assets and liabilities arising from transactions with other federal entities. Non-Federal (NFed) identifies assets and liabilities arising from transactions with the public.
- I. Column (9) uses the FMS coding to identify the breakout as covered (Cov) by budgetary resources or not covered (NCov) by budgetary resources.
- J. Column (10) is used to identify additional breakout requirements for USSGL accounts.
